5-4-3-2-1 grounding

Take one slow breath. Then name what's around you, one sense at a time. Go slowly. There are no right answers, and you can skip a sense or swap it for another.

5
See
A color, a corner, a mug, your own hands

4
Feel
Feet on the floor, the seat under you, a sleeve

3
Hear
A hum, traffic, your own breathing

2
Smell
Soap, coffee, fresh air. None? Name two you like

1
Taste
Toothpaste, water, your last meal

Before: what was on my mind?

After: how does my body feel now?

If this makes you feel worse, stop. Breathe normally, look at one steady thing in the room, or talk to someone you trust.
